

Eileen Sinnott  
9 Gerber Court  
Mount Kisco, NY 10549  
HB 5537

March 12, 2014

Dear CT PHC Testimony,

Dear Senator Gerrata, Representative Johnson, and esteemed members of the Public Health Committee:

I write to ask you to strongly support and vote in the affirmative to add bill language for the modernization of the CT Naturopathic physician scope of practice to HB 5537. The language needs to be attached to this bill so it can come before the Public Health Committee for consideration. This Naturopathic scope of practice law is 90 years old and has not kept pace with the significant advances in education and training of Naturopathic doctors in the ensuing decades.

My sons and I have received more effective help with our health care issues from our Naturopathic Physician, Dr. Adam Breiner, than we have from any of the medical doctors we have seen over the years. He is thoughtful, cautious and extremely well informed, and his mission is to find the cause of our health problems rather than simply treat the symptoms. Without a doubt, he should be able to prescribe medication and give intravenous treatment when needed. Please support this bill.

Thank you for your support and consideration.

Sincerely,  
Eileen Sinnott
